Subject: Update: Dawson Creek/Chetwynd Area Transmission Project

Good afternoon, Mayor Nichols:

I am pleased to let you know that we have energized the Dawson Creek/Chetwynd Area transmission line and associated substations, and they are now operating as part of the BC Hydro system.

We've also notified property owners that the line is energized and given them a head's up of some additional work to be completed around tower foundations. We've appreciated their patience over the last two years as this important project has been constructed.

If you have any questions, please drop me a line or call me (604 623 4128).

Otherwise, wishing you the very best for 2016.

Regards

Lesley
